

Cooper Kamara

Web Designer

Summary

I'm a responsive Web Designer. I specialize in creating HTML and CSS modern and effective Websites with an emphasis on usability and accessibility. My goal is to create websites that look great and are easy to use. I'm always up to date with the latest web development technologies and techniques. I also design websites with WordPress. I have a lot of experience creating responsive web designs that look great on any device, I also provide ongoing maintenance and support for my clients' websites. I am well-versed in HTML and CSS coding, and I have experience in designing and developing custom plugins and themes with WordPress.
